Allan had grown pale, and looked dis-ed beyond expression. My father looked

cond wafe.

Nill Allan answered not; his mother looked anxiously on.

"You cannot herstate, my son, she and, at length; 'you will make your uncle happy, and redeem the lands of the Douglas."

" 'Unck, said Allan, in a low, hoarse oice, 'are you quite sure of what you say bout Gabriel?'

la next reflict a requestry in the replied. 'I will stry Elanche, 'I have son,' said my three son,' said my three. 'Add one favor more—promise me lat sity' eyes shall be gladdoned by eing the wish of my heart tulfitled. Let be marriage take place here to-morrow

the marries morning.

"So soon, and Allan.

"Yee, I shall do happier for it," was the reply. I shall leave my little girl in safe hands. You will be kind to her for my sake done, and for the wrong I did her mother?

"I will uncle," replied Allan, solemning.

Will unch, replied Allan, seeming, have no districted falsy boughts about no uncher cell leding no un ber arms, and calling no ler daughter—of Mars Errectl ledding me from the room; then there is a blank of several hours. I awake from the long skep or awoon—I cannot tell which it was alone in my own room. I falshe we have promised wife of Allan Donglan," was the promised wife of Allan Donglan."

[TO BE CONTINUED.]

Trective Music.

Varous experiments have been made for months past with the "electrical phone-graph," as it is called, the result appearing composing and reproducing times which are played on the piano. Each key has a separate wire connected with it, and the louristic wire connected which last as long as the note is depressed. The waver past to a seried frestolding touched wheels, and the gassage of the corresponding whoel in contact with a moving band of paper, and continues to chip office of paper as long as the first a piece has been played, the hand of paper is marked with holes and site corresponding to the is passed between a wind; and a number of printing, each one connected with a notion of the plane of the contraction of th
